1. Prep ingredients

Put the cream in the fridge for a few hours to chill (see Kitchen notes). Preheat the oven to 180C. Chop **75g butter**, then put in a bowl to soften. Put the **dates, baking powder** and **180ml (¾ cup) boiling water** in a heatproof bowl and stir to combine. Stand for 10 mins or until softened. Grease a 12-hole muffin pan.

2. Make batter

Transfer the **date mixture** to a food processor (see Kitchen notes). Add the **softened butter** and **110g (½ cup) brown sugar** and process until combined. Add **150g (1 cup) flour** and **2 eggs** and process until just combined.

3. Bake puddings

Divide the **batter** evenly among the muffin holes. Bake the **puddings** for 20-25 mins until a skewer inserted into the centre comes out clean. Cool in the pan for 5 mins.

4. Make butterscotch sauce

Meanwhile, put **50g butter***, **110g (½ cup) brown sugar** and **125ml (½ cup) cream** in a small saucepan over medium-high heat. Cook, stirring, for 2-3 mins until the butter melts and the sugar dissolves. Bring to the boil, then remove the pan from the heat.

5. Serve up

Whisk the **remaining chilled cream** in a bowl until soft peaks form. Divide the **warm puddings** among bowls, drizzle over the **butterscotch sauce** and top with the **whipped cream**. Enjoy! **Makes 12 (2 puddings per serve)**.

6. Kitchen notes

Our cream can live either in the fridge or in the pantry, but to ensure it whips easily and holds its shape, chill before use. ~ If using a stick blender, transfer the ingredients into a large, deep bowl.
